A few of the things you should know about Coach® Belts

Coach® Belts are classic Glove Leather belts that are well constructed and beautifully detailed.

Coach® Belts are made by the same people who make Coach® Bags – produced in the same factory, made out of the same leather and stitched by the same sewing machine operators.

Coach® Belts are made in a range of men's and women's widths and sizes. There are ten colors of Glove Tanned Cowhide to choose from as well as an assortment of leather-trimmed wools and linens in colorful racing stripes and solids.

Coach® Belts – whether they are made entirely of leather or in combination with natural fibers – all have the same crisp, traditional saddlery look that is unmistakably "Coach."

Coach® Belts are distinguished by their authentic solid brass hardware, each buckle individually cast in sand.

Coach® Belts have been made in the same basic models with the same classic harness buckles for over ten years. Many fads and trends have come and gone in that time, but these belts have never gone out of style.
